- Polish — B1

IVAN SERBENIUK

FULL STACK DEVELOPER · PHP & PYTHON

PROFILE

Full Stack Developer with 3+ years of experience in PHP (Laravel, CodeIgniter) and Python (FastAPI, Django), with React and React Native on the frontend. I build web applications, backend services, and integrations with CRM systems and LLMs: delivered production furniture configurators, an LLM-powered document processing pipeline (GPT + OCR), and rebuilt company websites from scratch.

WORK EXPERIENCE

- **Mitridat Container** 05/2026 – PRESENT
Full Stack Developer · mitridat-container.com
 - Rebuilt the company websites from scratch on Laravel with a custom admin panel: faster load times, higher conversion, easier content management
 - Developed backend services with FastAPI
 - Integrated the websites with Bitrix24 CRM
 - Set up analytics and call tracking: Google Analytics, Ringostat
 - Web scraping and data collection
 - Developing the company's mobile app with React Native
 - Developing and maintaining Laravel websites: bex-auto.com, bex-auto.md, kz.bex-auto.com, bex-space.com, bex-tech.com
 - Maintaining the WordPress corporate website mitridat-container.com
- **WCS** 2023 – 12/2025
Full Stack Developer — Middle
 - LLM-powered insurance document processing
 - Integrated OpenAI GPT and Google OCR for automated document analysis
 - Implemented document classification and data extraction
 - Developed APIs that deliver structured results directly to agents
 - Furniture configurators
 - Backend (CodeIgniter 3/4): business logic, REST APIs
 - Frontend: React, JavaScript, markup
 - Databases: MySQL, query optimization
 - Delivered: specialt.net/tables, build.loftwall.com, build.ghent.com, plus several private B2B configurators
- **Freelance / Non-Commercial Projects** 02/2022 – 2023
 - Volunteer website respondua.org
 - Backend (Django/Python): API development, integrations
 - Frontend: markup, JavaScript
 - Docker, CI/CD, deployment on DigitalOcean/AWS
 - Web scraping projects with Selenium, BeautifulSoup, Scrapy, Requests

PROJECTS

Study Flashcards — REST API backend with a React frontend · PHP, CodeIgniter 4, React · github.com/IvanSerbeniuk/Study_flashcards

The Wild Oasis — booking management dashboard · React, Supabase · oasis-booking-online.netlify.app
